Objective:

Highly skilled web developer with 3 years of experience in HTML, CSS, JavaScript, and Node.js, as well as 2 years of Python development experience. Proven track record of completing over 30 full-stack web development projects. Seeking an opportunity to leverage my expertise and contribute to innovative web solutions.

Professional Summary:

- Extensive experience in full-stack web development, from creating visually appealing front-end interfaces to building robust back-end systems.

- Proficient in HTML5, CSS3, JavaScript, React, and Node.js, with the ability to develop responsive and interactive web applications.

- Strong Python development skills, with a focus on creating efficient and maintainable code.

- Solid understanding of web security, performance optimization, and database management.

- Excellent problem-solving and debugging capabilities with a commitment to delivering high-quality work.

- Effective team player with the ability to collaborate on projects and meet deadlines.

Professional Experience:

- Designed and developed user-friendly front-end interfaces using HTML, CSS, and JavaScript, ensuring cross-browser and cross-device compatibility.

- Implemented dynamic features and real-time interactivity using React and integrated APIs for data retrieval.

- Created efficient back-end systems with Node.js, handling server-side logic, API development, and database interactions.

- Designed and optimized relational databases, crafted complex SQL queries, and prioritized data security.

- Conducted rigorous testing and debugging to resolve issues and enhance overall performance.

- Stayed updated on industry trends and best practices, incorporating them into web development projects.

- Utilized HTML, CSS, and JavaScript to create visually appealing and functional websites.

- Worked with Python to develop custom web applications, delivering efficient and maintainable code.

- Assisted in database management, ensuring data integrity and reliability.

- Contributed to performance optimization and troubleshooting efforts to deliver a seamless user experience.

Skills:

- Front-End Technologies: HTML5, CSS3, JavaScript, React.

- Back-End Technologies: Node.js, Python.

- Databases: SQL (MySQL, PostgreSQL), NoSQL (MongoDB).

- Web Security and Performance Optimization.

- Full-Stack Development and Responsive Design.

- Problem Solving and Debugging.
